### OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION IN MYSORE, BANGALORE.

*Notification D. No.* 83 *of* 33-34, *dated* 1*st June* 1934.

The accompanying extract from the report of the Silver Wedding Fund Authorities for the year ending the 31st December 1932 is published for the information of the public. Applications from qualified persons are invited which may be sent to the Director of Public Instruction in Mysore, Bangalore, not later than 15th September 1934.

*Rules for the award of scholarships from the Silver Wedding Fund for study abroad.*

An occasional scholarship may be awarded from the Fund from time to time for higher training outside India. No applications are invited for such scholarship but Directors of Public Instruction are at liberty to submit the applications of suitable candidates before the first of January for the year in which they desire to pursue their studies in Europe. The scholarships may be of the value of £300 a year, tenable for a period of three or four years according to the course of study to be pursued; free second class passages from Bombay to London and back are provided. Such scholarships were originally confined to graduates of Indian Universities under the age of 22 years, but it has been subsequently decided to consider also applications from non-graduates who are successful in examinations not conducted by a University, and to refrain from laying down any hard and fast rules specifying on age limit. A scholarship will not ordinarily be awarded to students to study subjects in which suitable provision for training is available in India. Furthermore, only those students will be considered for scholarships who are brilliant and whose fathers have rendered exceptional services and have very limited means.

## REVENUE DEPARTMENT

### OFFICE OF THE REVENUE COMMISSIONER IN MYSORE, BANGALORE.

*Circular No. R. Dis.* 32—33-34, *dated* 18*th January* 1934.

The attention of all Revenue Officers is drawn to Government Notification No. R. 428—L. R. 131-32-51, dated 25th July 1933, directing that with effect from 1st August 1933 Chapters I, II and IV, with the exception of Section 16, and Chapters V and VII to XI (both inclusive) of the Mysore Irrigation Regulation, shall extend to the whole of Mysore and shall apply to all Irrigation Works within the State, and to Notification No. R. 415—L. R. 131-32-4, dated 25th July 1933, appointing Assistant Commissioners in charge of Sub-Divisions as Irrigation Officers with respect to the Irrigation Works within their respective jurisdictions, excepting these works in respect of which the Public Works Department Officers are specifically nominated. It is hoped that all grades of Revenue Officers will carefully study the provisions of the Regulation with special reference to their duties and obligations thereunder.

Particular attention may, however, be drawn to the following points :—

1. With effect from the date from which the Regulation has come into force, all existing regulations, rules, orders or usages having the force of law, in so far as they are inconsistent with any of the provisions of the Regulation and the rules made thereunder, should be deemed to have been repealed to the extent to which they are so inconsistent in the areas and with respect to the Irrigation Works or classes of works to which the provisions of this Regulation are extended. Care must therefore be taken before applying any of the

existing rule or provision to examine whether such rule or provision is consistent with the provisions of the Irrigation Act. (Section 2.)

2. The powers of entry and inspection enumerated in Section 5 and the emergency powers mentioned in Section 6 are comprehensive, but they should be exercised with care and subject to the limitations imposed in Section 7, as compensation is payable under Section 20 for any substantial damage caused by the exercise of powers under this Regulation.

3. The Revenue Officers should refrain from exercising the powers mentioned in Chapter III as the provisions of that Chapter have for the present been made applicable only to Irrigation Works under the direct control of the Public Works Department. (*Vide*: Government Notification No. R. 428—L. R. 131-32-5, dated 25th July 1933).

4. Chapter IV relates to regulation of water-supply from Irrigation Works. The regulation of water-supply under Section 13 should be based upon a thorough enquiry into the circumstances of each case. The circumstances under which and the limitations, subject to which, supply of water to which any water-course or any person is entitled may be stopped, are detailed in Section 15. It should be noted that Section 16 under which the Irrigation Officer can fix the portion of the wet lands to be cultivated with wet crops in the year, has not been extended to irrigation works under the control of the Revenue Officers.

5. Chapter V provides for the grant of compensation in the event of any substantial damage caused by the exercise of any of the powers conferred by the Regulation, and is therefore an important Chapter which the subordinate officers should always bear in mind in exercising their powers under the Regulation, as any carelessness on their part would involve heavy expendiure to Government. Claims for compensation under this Chapter are not referable to Civil Courts and have to be dealt with exclusively by the Irrigation Officer, the Deputy Commissioner and, in case of appeal, by the Revenue Commissioner, whose decision is final. It is the duty of the Irrigation Officer to see that the extent of damage caused by entry on private land or by the execution of work thereon is ascertained and recorded immediately and that compensation therefor is offered within one month.

6 Chapter VI describes the procedure to be adopted in respect of the construction and improvement of irrigation works for which the levy of contribution or water-rate or both, is necessary. The application of this Chapter is for the present confined to works costing not less than Rs. 10,000 according to Government Notification No. R. 428—L. R. 131-32-5, dated 25th July 1933. In the case of Irrigation Works estimated to cost less than Rs. 10,000, the recovery of contribution will continue to be governed by the existing provisions contained in the Minor Tanks Restoration Regulation and Articles 379 and 389 of the Revenue Manual, Part I, as the case may be.

7. The provisions of Chapter VII regarding the impressment of labour in emergencies have been found useful during the last rains when danger was apprehended to many tanks. Under Section 31, it is the duty of every able bodied person in the locality to comply with any lawful requisition made to him for assistance in the execution of work by his labour, and failure to comply with such requisition is punishable under Section 47. The Irrigation Officers should make full use of these powers in times of emergencies, but at the same time, they must bear in mind that such labour is to be paid for at an abnormal rate under Section 32, and see that the cost to Government on this account is limited to the minimum possible.

8. Chapter VIII deals with customary labour that may be required to be performed by the raiyats. The existing rules and practice are consolidated in the Regulation. Provision has also been made for the commutation of the customary labour, into contribution in cash (Section 35). In cases of failure to perform customary labour, the Patel may get the work carried out by hired labour (Section 37) and a sum equivalent to the value of the labour which the defaulter should have contributed may be recovered from him as an arrear of land revenue (Section 39). These provisions should be unhesitatingly utilised so that heavy maintenance works, which are the result of cumulative neglect, may be avoided to the advantage both of the Government and of the raiyats. Until rules are issued under Section 38 as to the quantum of labour to be contributed by the landholders and others, the instructions contained in paragraph 360 of the Revenue Manual on this and other related points will continue to be in full force. The Regulation places no limit on the maximum amount that may be levied from the raiyats for repairs necessitated by their cumulative neglect, but the directions contained in paragraphs 3 and 4 of Government Order No. R. 2315-25—L. R 312-26-5, dated 30th September 1927, should be borne in mind in this connection.

9. Chapter IX deals with the constitution of, and delegation of powers to, Irrigation Panchayets and Boards. The scope and object of the provisions contained in this Chapter will be clear from the following extract of the proceedings of the Legislative Council, December 1931:—

"*Rajamantrapravina* K. Matthan.—

"The question may be asked why special provision should be made in this Bill for such Irrigation Panchayets and Boards when the Tank Panchayet Regulation of 1911 already

gives powers to constitute Tank Panchayets. As an answer to that question, it is perhaps sufficient to remind the House that that Regulation has been on the statute book for two score years but the number of Panchayets constituted and working under that Regulation is scarcely more than two dozen, while the number of Irrigation Works to which the Regulation might have been usefully applied is more than 2,000. Even the few existing Panchayets have not availed themselves of some of the important provisions of the Regulation. The fact of the matter is that the provisions of the Tank Panchayet Regulation have been found to be too rigid and inelastic. The Committee have now proposed to constitute Irrigation Panchayets and Boards under general or special rules to be framed by the Government. This is calculated to give a certain degree of elasticity to the provisions and the Committee feel that it would be possible to constitute a very large number of Irrigation Panchayets

..... .... .... ..... .....

"*Rajasabhabhushana* Sir K. P. Puttanna Chetty.—..... .....and do away with the existing Tank Panchayets?

"*Rajamantrapravina* K. Matthan.—

"It might come to that in the long run. We do not know, because those Panchayets have some definite powers which are not contemplated in this Bill.

"It is provided that such of the powers of the Deputy Commissioners and the Irrigation Officers under the Bill as the Government deem fit may be entrusted to the Irrigation Panchayets and the Committee also consider that some of the powers that would necessarily remain with the Deputy Commissioners or Irrigation Officers, such as for instance, the regulation of irrigation and restrictions of water-supply to a limited extent of lands in years of deficient rainfall should be exercised as far as possible in consultation with and on the advice of Irrigation Panchayets."

10. Section 46 enumerates offences under the Regulation and supersedes the existing Channel Offences Rules (Article 366, Revenue Manual, Part I). It may be noted that offences under the Regulation cannot be dealt with by Revenue Officers *qua* Revenue Officers as heretofore but only by Magistrates as defined in Section 3 (10) of the Regulation.

(*b*) To allot scholarships of the various grades among the several districts and taluks and among the various communities in the State in accordance with the principles laid down by Government from time to time, and collect and compile all statistics necessary for such allotment.

(*c*) To see that the scholarships of the various grades are awarded in time by the Taluk or District Committees, as the case may be, or in the case of lapses under any community, in any district to award such lapsed scholarships to the candidates who belong to that community and are recommended by any other Taluk or District Scholarship Committee.

(*f*) To draw and submit to Government *before the end of March in each year* an annual report upon the working of the entire scheme throughout the State.

IV. The following principles shall be adopted for the allotment of scholarships :—

1. The total number of scholarships allotted to the different grades as per Appendix I, shall be first divided among the different communities or groups of communities in proportion to their total population in the State. The distribution made according to this rule is shown in Appendix II.

2. The scholarships allotted to each group or community as stated above shall be sub-divided among the several districts and taluks on the basis of the total attendance of the number of pupils of that community or group in the respective grades of education in the previous year in each unit area. A table showing the allotment made according to this calculation is shown in Appendix III.

3. In the distribution of the scholarships allotted to a group of communities, the scholarships awarded to each community within that group should be in proportion of its population, provided there are applicants to that extent.

V. The following principles shall be adopted for re-allotting the scholarships ;—

1. If any scholarships remain unutilised in any grade in a district, they shall be first made available to pupils of the same grade and of the same "community" or group in the other districts in which the allotments fall short of the number required, the distribution being made proportionately to the needs of each district.

2. If after such re-allotment of the scholarships of one grade, any remain unutilised, they shall be granted to pupils of the same community or group in other grades in any district, each lower grade being taken after the requirements of the one immediately higher are satisfied.

3. Those scholarships, which still remain unutilised even after transfer to other districts may be given to other communities or groups of communities in the order of their illiteracy or may lapse to Government.

VI. All the students to whom Backward Class Scholarships will be awarded should be considered as free students and the fees collected from them till the date of award should be drawn on refund bills from the treasury and refunded to boys. These free studentships shall be in addition to the 20 per cent usually allowed in all Government and Aided Institutions.

N.B.—These scholarships are tenable only to boys and none but regular students in any Institution in the State and Mysoreans by birth or domicile are eligible.

VII. (1) The work of the *Ad-Hoc* Scholarship Committees should be done by Head Masters with their ordinary staff, but no separate clerical allowance can be given for this purpose.

(2) The following procedure shall be adopted for the drawing of these scholarships :—

*Notification No. B*1. 5-1—34-35, *dated 6th August* 1934.

Subject to the usual conditions of satisfactory progress, conduct and attendance, the following boys reading in High Schools are awarded Depressed Class Scholarships of the value of Rs. 7-8-0 each for a period of ten months from 1st June 1934, or from the date of their joining the school, whichever is later. 1. Applications for admission to the examinations should be submitted on printed forms which will be supplied on application to the Secretary, Local Examinations Boards, New Public Offices, Bangalore, after the 1st October 1934. All requisitions for forms should reach the Secretary, at least a fortnight before the latest date prescribed for sending in the applications for admission to the examination. The Secretary will not be responsible for non-receipt of forms owing to the requisitions being sent too late.

2. Fees as shown in Column No. 4 of the statement against the particular examination to which the candidate seeks admission should be credited into a Mysore Government Treasury in time for sending in the applications by registered post so as to reach the Secretary, Local Examinations Boards, on or before the date mentioned in Column No. 3 after which date, *no applications will be received for that particular examination.*

5. Boy candidates will not be admitted to the Mysore Middle School Examination by *Private Study* unless they send with their application form sufficient proof to show that they had sat for the English Lower Secondary or Middle School Examination (with English as First Language) in 1934 or before and had failed at the examination or unless they are specially permitted by the President, Local Examinations Boards, in which latter case the original permission granted should be attached to their applications for admission to the examination. Teachers in recognised schools and girl candidates may, however, appear for the examination by private study, without satisfying any of the conditions referred to above.

6. The printed column in the application form for non-attendance certificate in the case of private candidates (both boys and girls) for the Middle School and Lower Secondary Examinations of 1935 should be filled up before the form of application is sent to the Secretary, Local Examinations Boards. The officers who sign the certificates of non-attendance are requested to satisfy themselves that the candidate is a *bonafide* private candidate and to allow no scope for irregularity of any kind in this respect.

7. (*a*) Applications for transfer of centres in the case of *the Middle School or the Lower Secondary Examinations of* 1935 should reach the Secretary, Local Examinations Boards, Bangalore, on or before the 31st January 1935. (*b*) The Heads of Institutions should satisfy that the date of birth entered in the S.S.L.C. card corresponds with that in the Admission Register of the school.

(*c*) The Heads of High Schools should arrange the applications and the S.S.L.C. cards separately in the same order, first according to the Second Language chosen by them secondly, in the alphabetical order under the several second languages. ## OFFICE OF THE CHIEF INSPECTOR OF MINES AND EXPLOSIVES IN MYSORE.

*Notification No* 511, *dated Oorgaum* 14*th September* 1934.

Instances have come to the notice of this department where licensees manufacturing explosives, instead of doing so in the places indicated on their licenses do clandestinely manufacture them in their own dwelling houses or sale premises within closed doors during night time. As such places are generally situated on public roads in congested localities and since such a practice is liable to endanger public safety, persons in the know are requested to guard themselves against eventualities by promptly reporting the names of such licensees to the Local Police Authorities. This notice is published for general information in view of the approaching Deepavali Festival when the licensees are likely to transgress the conditions of their licenses owing to the demand for firework articles during the season.

Government in their Notification No. D. 2814—Geol. 66-28-25, dated 9th September 1930 have prohibited within the Mysore State the manufacture, possession and importation of any explosive consisting of or containing sulpur or sulphuret in admixture with chlorate of potassium or any other chlorate.

Many accidents, caused during the illicit manufacture and handling of a variety of fireworks commonly known as ("Pattas" or "Bellulli Pattas"—throwdowns or small bombs) consisting of a mixture of Pottassium chlorate (ಪೊಟಾಸ್‌ಉಪ್ಪು) and Arsenic or Antimony Sulphide (ಮಣಿಸಲೆ, ಹರಿದಳ) or sulphur (ಗಂಧಕ) have come to the notice of this Department resulting in serious and sometimes fatal injuries to the persons manufacturing or handling the mixture, besides doing damage to property.

The mixture constitutes a highly dangerous explosive which is sensitive to friction, force (blows) and even liable to ignite spontaneously.

As this firework composition is mostly used during Deepavali and Shaban Festivals, timely warning is hereby given to all persons concerned not to manaufacture, possess or sell this dangerous explosive.

Any persons manufacturing, possessing or importing such a mixture will be punished according to Law.

## OFFICE OF THE CHIEF INSPECTOR OF MINES AND EXPLOSIVES IN MYSORE.

*Notification No* 511, *dated Oorgaum* 14*th September* 1934.

Instances have come to the notice of this department where licensees manufacturing explosives, instead of doing so in the places indicated on their licenses do clandestinely manufacture them in their own dwelling houses or sale premises within closed doors during night time. As such places are generally situated on public roads in congested localities and since such a practice is liable to endanger public safety, persons in the know are requested

to guard themselves against eventualities by promptly reporting the names of such licensees to the Local Police Authorities. This notice is published for general information in view of the approaching Deepavali Festival when the licensees are likely to transgress the conditions of their licenses owing to the demand for firework articles during the season.

Government in their Notification No. D. 2814—Geol. 66-28-25, dated 9th September 1930 have prohibited within the Mysore State the manufacture, possession and importation of any explosive consisting of or containing sulpur or sulphuret in admixture with chlorate of potassium or any other chlorate.

Many accidents, caused during the illicit manufacture and handling of a variety of fire-works commonly known as ("Pattas" or "Bellulli Pattas"—throwdowns or small bombs) consisting of a mixture of Pottassium chlorate (ಪಟಾಸ್‌ಉಪ್ಪು) and Arsenic or Antimony Sulphide (ಮಣಿಶಿಲೆ, ಹರಿದಳ) or sulphur (ಗಂಧಕ) have come to the notice of this Department resulting in serious and sometimes fatal injuries to the persons manufacturing or handling the mixture, besides doing damage to property.

The mixture constitutes a highly dangerous explosive which is sensitive to friction, force (blows) and even liable to ignite spontaneously.

As this firework composition is mostly used during Deepavali and Shaban Festivals, timely warning is hereby given to all persons concerned not to manaufacture, possess or sell this dangerous explosive.

Any persons manufacturing, possessing or importing such a mixture will be punished according to Law.

## OFFICE OF THE CHIEF INSPECTOR OF MINES AND EXPLOSIVES IN MYSORE.

*Notification No* 511, *dated Oorgaum 14th September* 1934.

Instances have come to the notice of this department where licensees manufacturing explosives, instead of doing so in the places indicated on their licenses do clandestinely manufacture them in their own dwelling houses or sale premises within closed doors during night time. As such places are generally situated on public roads in congested localities and since such a practice is liable to endanger public safety, persons in the know are requested to guard themselves against eventualities by promptly reporting the names of such licensees to the Local Police Authorities. This notice is published for general information in view of the approaching Deepavali Festival when the licensees are likely to transgress the conditions of their licenses owing to the demand for firework articles during the season.

Government in their Notification No. D. 2814—Geol. 66-28-25, dated 9th September 1930 have prohibited within the Mysore State the manufacture, possession and importation of any explosive consisting of or containing sulpur or sulphuret in admixture with chlorate of potassium or any other chlorate.

Many accidents, caused during the illicit manufacture and handling of a variety of fireworks commonly known as ("Pattas" or "Bellulli Pattas"—throwdowns or small bombs) consisting of a mixture of Pottassium chlorate (ಪೊಟಾಸ್‌ಉಪ್ಪು) and Arsenic or Antimony Sulphide (ಮಣಿಸಿಲೆ, ಹರಿದಳ) or sulphur (ಗಂಧಕ) have come to the notice of this Department resulting in serious and sometimes fatal injuries to the persons manufacturing or handling the mixture, besides doing damage to property.

The mixture constitutes a highly dangerous explosive which is sensitive to friction, force (blows) and even liable to ignite spontaneously.

As this firework composition is mostly used during Deepavali and Shaban Festivals, timely warning is hereby given to all persons concerned not to manaufacture, possess or sell this dangerous explosive.

Any persons manufacturing, possessing or importing such a mixture will be punished according to Law.
